

# Zetec MIZ<sup>®</sup>-21B Promotion

**THE MOST POWERFUL HANDHELD EDDY  
CURRENT TESTER ON THE MARKET IS NOW  
AN EVEN BETTER VALUE!**

The Zetec MIZ-21B delivers reliable eddy current technology in a convenient handheld form factor. Designed and built to go where other larger sized instruments cannot, the MIZ-21B can help find more defects in less time.

Combining the power of frequency testing, digital conductivity testing and nonconductive coating thickness measurement capability, the MIZ-21B is already an excellent value.

**NOW, SAVE UP TO 25% OFF LIST  
PRICE WHEN PURCHASING THE  
MIZ-21B BY JUNE 30, 2018!**

Contact your Zetec Account Executive or Partner for complete program details.
